ACCOUNT MANAGER BRIEF

StrydeOS

Yves Dally

StrydeOS · Account Manager · Commission-only

What you're selling

StrydeOS is a clinical operating system for private physiotherapy practices. It sits on top of whatever the clinic already runs and adds the three things those systems can't do on their own.

Ava

AI Receptionist

Answers every call 24/7. Books appointments. Chases no-shows. SMS confirmations.

£199/mo

+ £250 one-time setup

Intelligence

KPI Dashboard

Live clinician metrics. Utilisation, DNA rates, follow-ups, revenue per session. Weekly digest.

£129/mo

No setup fee

Pulse

Retention Engine

Auto re-engages patients who dropped off. 6-touch SMS/email sequence. Churn prediction.

£149/mo

No setup fee

Full Stack — all three modules

One system, one login, one invoice.

£399/mo

Save £78/mo vs individual

Who to target

Studio-tier private physio practices. 2-4 clinicians, probably on Cliniko or WriteUpp, drowning in admin but too small for a full-time ops hire. They know calls are getting missed and patients aren't rebooking. They just haven't had time to fix it.

You've sold AI receptionists before. Ava is your way in. Intelligence and Pulse are the expansion play once they're seeing results.

Your deal

Commission

15% of MRR from every client you close, paid monthly for as long as that client stays. Recurring, not one-off.

Close a studio Full Stack at £399/mo -- £59.85/mo from one deal. Close a clinic Full Stack at £599/mo -- £89.85/mo. Hit 10 clinic-tier closes and your rate jumps to **25%**. That's **£150/mo per clinic client**, every month.

Terms

Zero-hour, commission-only. No base, no cap. Setup fees (Ava £250) aren't commissionable -- recurring subs only.

You sell, we handle the rest. Onboarding, tech setup, API connections -- that's on us. Any questions, I'm available 24/7. Hit my line.

How a deal moves

Three touches. The audit is the demo -- you're walking them through their own blind spots with StrydeOS on screen.

Outreach — LinkedIn / email / call → **Clinic Audit Call** — 25 min - audit + live demo → **Live in ~5 days** — self-serve onboarding

The Clinic Audit Call

Before the call you pull their public data -- 10 minutes of homework. On the call, you walk them through what you found with StrydeOS as the lens. Not a pitch. A mirror.

PRE-CALL PREP (10 MIN)

Google Business profile: review count, average rating, how recent. Most studios sit around 30-60 reviews -- easy to spot when the pipeline dried up.

Website scan: online booking live? Phone number visible? Individual clinicians listed? This tells you where they're losing patients before they even pick up the phone.

PMS guess: check the booking link URL. Cliniko and WriteUpp have recognisable patterns. Knowing their PMS before the call lets you speak to integration straight away.

ON THE CALL (25 MIN)

First 5 min -- their gaps: "You've got 47 Google reviews, last one was 6 weeks ago. Your booking page doesn't show availability. When someone calls after hours, what happens?" Let them talk.

Next 10 min -- StrydeOS on screen: Pull up the Intelligence dashboard (use my clinic as the reference). Show them what their data would look like -- follow-up rates, DNA tracking, utilisation by clinician. Then show Ava handling a live call.

Last 10 min -- which module fits: Don't push Full Stack on the first call. If missed calls are the problem, it's Ava. If they can't see how their team is performing, it's Intelligence. Let them pick. The rest follows.

StrydeOS

Your earnings -- studio clients

2-4 clinicians - Full Stack £399/mo - 15% commission

Two scenarios. Bearish assumes it takes longer to ramp and most deals are single-module. Realistic assumes you sell how you've sold before -- Ava as the wedge, upsells kicking in by month 3.

BEARISH -- SLOW RAMP, MOSTLY AVA-ONLY

MTH	NEW	TOTAL	MRR	YOU (15%)
1	0	0	£0	£0
2	1	1	£199	**£30**
3	1	2	£398	**£60**
4	1	3	£647	**£97**
5	2	5	£1,145	**£172**
6	2	7	£1,693	**£254**

Month 6

£254/mo

7 clients - mostly single-module

REALISTIC -- AVA WEDGE, UPSELLS FROM MONTH 3

MTH	NEW	TOTAL	MRR	YOU (15%)
1	1	1	£250	**£37**
2	2	3	£780	**£117**
3	2	5	£1,375	**£206**
4	3	8	£2,320	**£348**
5	3	11	£3,300	**£495**
6	3	14	£4,340	**£651**

Month 6

£651/mo

14 clients - modules + bundles

Studio is where most deals start. The next page is where the maths changes.

CLINIC TIER - ACCELERATOR

StrydeOS

Where the maths changes

6+ clinicians - Full Stack £599/mo

Bigger practices, bigger deal value. Full Stack at clinic tier is £599/mo. After your 10th clinic-tier close, your commission rate goes from 15% to 25%.

COMMISSION ACCELERATOR

First 10 clinic-tier closes: **15% of MRR**

11th close onwards: **25% of MRR**

Single clinic Full Stack at 25%

£150/mo

per client, every month

BEARISH -- CLINIC TIER ONLY

MTH	NEW	TOTAL	MRR	YOU (15%)
1	0	0	£0	£0
2	0	0	£0	£0
3	1	1	£599	**£90**
4	1	2	£1,198	**£180**
5	1	3	£1,797	**£270**
6	1	4	£2,396	**£359**

Month 6 - at 15%

£359/mo

4 clinic clients

REALISTIC -- BUILDING TO ACCELERATOR

MTH	NEW	TOTAL	MRR	YOU (15%)
1	0	0	£0	£0
2	1	1	£599	**£90**
3	1	2	£1,198	**£180**
4	2	4	£2,396	**£359**
5	2	6	£3,594	**£539**
6	2	8	£4,792	**£719**

Month 6 - pre-accelerator

£719/mo

8 clients - 2 more to unlock 25%

COMBINED 12-MONTH -- STUDIO + CLINIC

Bearish

£600-800/mo

~10 studios + 4 clinics

Realistic

£1,800+/mo

~20 studios + 8 clinics

Post-accelerator

£2,500+/mo

25% on new clinic tier

Your 6-month playbook

WEEK 1 -- GET SHARP

Product walkthrough with me. Learn the three modules, the audit call format, and how we use it at my clinic (Spires). Target list is already in the CRM. By Friday, explain each module without notes.

WEEK 2-4 -- OPEN THE PIPE

Start outreach. 10-15 messages a day from the CRM. Lead with Ava -- familiar territory. Book Clinic Audit Calls. Target: 1 closed deal by end of month 1.

MONTH 2-3 -- RHYTHM

MONTH 3-4 -- GO BIGGER

You'll know which objections keep coming up. Start layering Intelligence into Ava conversations. "While we're setting up your call handling, want to see what your clinician data actually looks like?" Target: 2 new/month.

Start targeting clinic-tier practices (6+ clinicians). Same audit call, sharper pain -- more revenue lost per missed call, more at stake per underperforming clinician. Ask every happy client for one intro. Target: 2-3 new + 1 upsell.

MONTH 5-6 -- ACCELERATOR CHASE

Your single-module clients are your warmest pipeline. Use their own data to sell them the full stack. Clinic-tier deals are the priority -- each one pays ~£90/mo at 15%, and you're building towards the 25% threshold. Target: 3 new/month + steady upsell conversion.

What you get from us

Collateral: Branded deck, one-pager, demo environment, clinic audit template, email sequences, objection playbook. Whatever you need to close, we'll build it.

Support: I handle every onboarding personally. Tech setup, API connections, go-live -- none of that is on you. Any questions, any time, I'm on call.

Product: Production-grade, live today. Multi-tenant, Stripe billing, self-service onboarding. Already running at my clinic (Spires) with real data.

Proof: Not a mockup or a beta. Deployed, working, and the case study writes itself every week from live metrics.

Using AI in your workflow

No technical skill required. Just practical shortcuts.

CLAUDE (CLAUDE.AI)

Free to use, Pro is £16/mo for more capacity. Think of it as a sharp colleague who never sleeps.

Outreach emails: Paste a prospect's website URL and tell Claude exactly what you want. "Write a 4-sentence email to a 3-clinician physio practice in Bristol on Cliniko. Lead with missed calls. Direct, no fluff." The more specific you are, the better it writes.

Pre-call prep: Before a Clinic Audit Call, paste the prospect's Google reviews and website copy into Claude. Ask: "What are the likely pain points for this clinic and what should I open with?" You'll walk into the call better prepped than most reps manage with an hour of research.

Objection handling: Hit a new objection? Describe the situation to Claude and ask for 3 responses. Keep the best ones. Within a month you'll have a playbook built from real conversations.

Follow-ups: Paste your last email and however the prospect responded (or didn't). Ask Claude to draft a follow-up that adds something new rather than just chasing.

PERPLEXITY (PERPLEXITY.AI)

Search engine that gives you actual answers with sources instead of a page of blue links. Useful for quick prospect research -- "How many physio clinics in Manchester?" or "What PMS does [clinic name] use?" Faster than Google when you need a fact, not a rabbit hole.

HOW TO GET GOOD OUTPUT

Be specific. "Write me an email" gives you generic filler. "Write a 5-sentence email to a clinic owner paying £600/mo for Moneypenny, explain why Ava does more for a third of the price" gives you something you can send in two minutes.

Always put your voice on it. AI gets you 80% of the way there. The last 20% -- a detail about the prospect, a turn of phrase that sounds like you -- is what makes it land. Copy-pasting AI output word for word reads like AI output. People can tell.

Build your own library. When an email gets a reply, save the prompt and the output together. When a call script works, write it down. You're building a personal sales playbook. AI helps you build it faster, but the playbook is yours to keep.

Just talk to it. You don't need to learn prompt engineering or special syntax. Talk to Claude like you'd brief a colleague. If what comes back isn't right, tell it what's wrong and ask for another pass.

Example prompts you can steal

"I'm about to call a physio clinic in Leeds with 3 clinicians. They use Cliniko, have 38 Google reviews (last one 2 months ago), and their website doesn't mention online booking. What are their likely frustrations and what should I lead with?"

"A prospect said they're happy with their current answering service (Moneypenny, £500/mo). Write me a 3-sentence follow-up that doesn't bash Moneypenny but shows why Ava is a different category."

"Draft a LinkedIn connection message for a physio clinic owner. Keep it under 300 characters. Don't sell anything -- just reference something specific about their clinic and offer a free audit call."
